

# AUTONNIC

## Quality Policy

30apr20

It is our policy to design, manufacture and support reliable and effective products.

We will strive to maintain a level of satisfaction that customers require while conforming to our Quality Objectives and also conforming to the requisite statutory and regulatory requirements.

Autonnic is committed to:

- complying with the requirements of the customer and
- to be guided by the ISO 9001:2015 standard so as to continually attempt to improve the effectiveness of our systems and
- that all products we make are included in the scope of our quality management systems.

We will ensure that this policy is communicated, understood and implemented by everyone within the company.

We will review it annually for its continuing suitability.

Chris Shelton
